## DANILAX MIXTURE

DANILAX is not one of the usual laxatives. It is a safe product commonly used in Europe & USA over 20 years.

## THE BENEFITS

DANILAX is not absorbed by the body. Hence there is no side-effect and is non habit forming. DANILAX is specially suitable for Babies, Children, Pregnant Women, elderly people, Haemorrhoid sufferers and Diabetics.

## THE ADVANTAGES

1. The effect is mild and give natural motion.
2. The product is safe and there is no abdominal discomfort or distention.
3. Even after discontinue medication, there is still natural motion.
4. Does not interfere with the body's natural absorption of vitamins and damage the intestinal lining.

## DOSAGE

### INITIAL DOSE:

Adults	:	15ml	(1 tablespoonful)	twice daily
Children	:	5-10 years	10ml (2 teaspoonfuls)	twice daily
		1-5 years	5ml (1 teaspoonful)	twice daily
Infants	:	2.5ml	(half teaspoonful)	twice daily
Remarks	:	If there are no effects during the first 3 days, the dosage can be doubled.		

Having reached an effect, the dosage can be halved.

## THE TASTE

DANILAX tastes like normal syrup.

DANILAX can be added to water, juices, hot & cold drinks or even mixed with food.
